

How can we prevent a stranger to access to our mobile phone?

What we have to do when someone asks for photos on online games?

We should turn off the buetooth device after sharing data, after each utilization.

We should not send personal data or photos to unknown persons. We should inform our parents.

You Tube doesn't request personal data, therefore, it is important to delete those e mails.

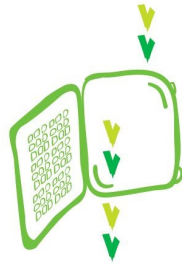

Whar should we do if we receive an e mail requesting our personal data?

What should we do when we go to an family event or to a show?

The phone should be hang out.

What should we do if we have important files on the computer?

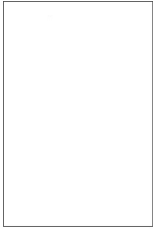

Where can we do safety copies of our important files?

We can use a pen drive, an external disk, CD or DVD or web storage service - online cloud.

You need to ask for their permission before.

If you want to publish a friend photo what should you do?

QUANTOS QUERES?

Keep my virtual school safe

ENJOY!!!!
